## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 22-34 and 36-42 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is cited on the PTO 892 form of the previous Office action. The cited prior art do not disclose or suggest that the microcavities serve as centers of volume accommodation or that the precipitate embryos form from a combination of the material of the substrate and species provided by the substrate as required by the present claims. In the absence of impermissible hindsight, there is no motivation to arrive at the presently claimed invention. Therefore, the Claims at hand are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
